Vic Falls Photographic Tour

Photographic Tour of the Falls

Capture the breathtaking Victoria Falls with the assistance of a seasoned photographer on this photographic tour of the falls

Victoria Falls is famous for being one of the Seven Wonders of the Natural World, attracting thousands of visitors a year. One of the great attractions is the almost permanent rainbows that the spray creates. Photographing these can be a challenge especially at certain times of the year. Sunrise and sunset is also a special time to photograph the falls. On a photographic tour of the falls, view the Victoria Falls with your own private photography guide who has spent many years learning the tricks and techniques that these unique conditions require. You will be tutored one-on-one throughout the whole tour and learn tips, techniques, be shown angles and viewpoints that suit your photograph as well as advise on camera settings and equipment. Helping you get the best possible photos you can.
